Newnan, Georgia 30265

Back Row (l to r): Anthony Cordero, Jeff Ford, Derrick Mayner, Guy Serapion, Mike Davidson; Front Row (l to r): Diane Brown, Dennis Compton, Misty Goss, Ken Rodden; Not Pictured: Carolyn Rogers

On June 22 2002, a group of **SIVACO Georgia** employees successfully completed the course, *INTERNAL AUDITING: Mini-Audits for Maximum Results*. John Novak, from KAVON International, Inc., conducted the course.

The basic concepts of internal auditing were introduced during the course, while stressing the importance of auditing to **SIVACO** in upgrading its registration to ISO 9001:2000. The students were educated on their role as auditors and the key role that they play in improving the Quality Management System at **SIVACO**. They also participated in a number of exercises that reinforced the concepts being taught.

Founded in 1949, the **SIVACO** Wire Group is one of North America's leading wire suppliers, producing in excess of 400,000 tons each year. With 50 years of experience, **SIVACO** maintains a strong emphasis on product development using only the latest technology with a sophisticated line of wire products that surpass customer expectations.

SIVACO Georgia, home of the corporate office, uses advanced cleaning, coating and annealing technology and draws wire with diameters between .051" - .720", (1.275mm -18mm). Their state-of-the-art annealing technology virtually eliminates changes in the product's surface carbon, thereby eliminating the need for carburizing or decarburizing its surface.

SIVACO Georgia is registered to the ISO 9002:1994 quality standard and is upgrading their system to ISO 9001:2000.
