The New Internal Auditors at DATCO Manufacturing Company and EPCO Extrusion Painting Company

On November 17, 2004, a group of employees from DATCO Manufacturing Company and EPCO Extrusion Painting Company completed training on **INTERNAL PROCESS AUDITING** conducted by John Novak of KAVON International, Inc. The training sessions focused on processes and how to audit them. Techniques were taught on how to document and analyze processes in order to be able to perform an audit that adds value to the organization.

The EPCO Extrusion Painting Company is a division of Aerolite Extrusion Company. They provide aluminum extrusion painting & finishing services aimed at industrial or specialized paint applications for aircraft, ship, or bridge, pavement marking services, exterior painting services, interior painting services, wall covering services, metal extruding services, and horseshoeing services.

The powder coating process offers an environmentally friendly advantage of being virtually pollution-free! EPCO embraces the use of sustainable materials and practices. They participate in the solution by making products that leave a smaller environmental footprint with the projects their customers undertake.

EPCO Extrusion Painting Company is certified to ISO 9001:2000.

If your company is seeking registration or compliance to any of the Quality Management System standards such as ISO 9001:2000, ISO 16949, AS9100, ISO 17025, ISO 14001, or ISO 13485, give us a call at 888-637-9398 and let one of our Trusted Advisors guide you through a successful implementation.
